# EXPATRIDE COMPANY PROFILE

# THE IDEA

The idea for ExpatRide came from our founder Jesper Løvendahl's own experiences, with moving to New York in 2005. Trying to lease a car, get a credit card, cell phone, and renting a home without a U.S. credit score was hard to do.

This provided the idea to solve expats' challenges with leasing a car in the U.S., which lead to solving more transportation challenges globally for expats.

# WE KNOW WHAT IT'S LIKE TO RELOCATE TO A NEW COUNTRY

The ExpatRide team consists of people with expat experience living in Cambodia, Canada, Cuba, Denmark, Egypt, Germany, Italy, Jordan, Lesotho, Peru, Singapore, Spain, Sweden, the U.S., and Yemen.

## **OUR MISSION**

Is to create solutions to current expat assignees' transportation and settling-in needs. Using innovation, technology, and empathy, we strive to simplify global coordination and service deliveries for our partners and clients, with the end-user in the driver's seat or as a passenger according to their needs!

#### OUR GLOBAL EXPANSION

Since the idea for ExpatRide was born in 2008 in the U.S. We have expanded our services to cover not only car leasing, but also rental cars, chauffeur service, airport transfer, and armored vehicles with security details.

In 2020 we launched ReloDrive, providing settling-in and area familiarization services. A more cost efficient and flexible destination services program.

# TRANSPORTATION SERVICES WORLDWIDE

Expat car leasing in 51 countries, car rental in over 176 countries, airport transfer service to/from over 1,000 major airports and chauffeur service in 156 countries.

## TRANSPORTATION PLAN

Consulting service. With our clients, we build a global mobility transportation program. Aligning customary transportation, budgets, allowances, self-pay, individually tailored solutions, and centralized direct billing arrangement across all services.

#### RELODRIVE

Available in 53 countries. According to the assignee's needs, we schedule all the essential appointments to start their new life. Assignees are provided with an individual transportation option and a customized, real-time digital itinerary that incorporates navigation.
